#### Reporting basics:

- **Why?** The notifiable diseases and conditions are diseases and conditions declared to be infectious or communicable or of public health significance. Each suspected or diagnosed case shall be reported to the Kane County Health Department as mandated by the State of Illinois. (77 IL Admin Code 690, 693, and 696)
- **Who?** Healthcare providers, healthcare workers, hospitals, laboratories, or any other person having knowledge of a known or suspect case or carrier of a disease or condition or death from these notifiable diseases or conditions shall report the case, suspect case, carrier or death in humans within the time frames set forth on the list. (77 IL Admin Code 690.200)
- **Where?** The reports shall be submitted electronically through IDPH's electronic disease surveillance system, a web-based system, or by mail, telephone, facsimile, other secure electronic system approved by IDPH, or on paper forms provided by the Kane County Health Department. For cases of AIDS or HIV infection, the report shall be completed by a health care professional or designee using the IDPH HIV/AIDS Confidential Case Report Form.
- **What?** The report shall provide information on:
  - The notifiable disease or condition
  - Patient's name, age, date of birth, sex, race, ethnicity, address (including zip code), email address and telephone number
  - Attending physician's name, address and telephone number
  - Additional information as requested by the health department.
