King Arthur Flour, Inc. Recalls Unbleached Flour

The Kane County Health Department is advising that King Arthur Flour, Inc., in association with ADM Milling Co., announced a voluntary national recall of five-pound bags of its Unbleached All-Purpose Flour due to the potential presence of Escherichia coli bacteria (E. Coli).

This recall affects 14,218 cases of flour with six specific lot code and three Best Used by Date, which can be found on the bottom of the side panel, below the nutrition facts panel:

BEST USED BY 12/07/19 LOT: L18A07C

BEST USED BY 12/08/19 LOTS: L18A08A, L18A08B

BEST USED BY 12/14/19 LOTS: L18A14A, L18A14B, L18A14C

E. coli causes a diarrheal illness often with bloody stools. Although most healthy adults can recover completely within a week, some people can develop a form of kidney failure called Hemolytic Uremic Syndrome (HUS). HUS is most likely to occur in young children and the elderly. The condition can lead to serious kidney damage and even death.

If you have any of the recalled flour, don't cook or bake with it. Throw it away or return it to the store where you bought it for a refund. If you have any questions, call the King Arthur Flour Consumer Hotline at 866-797-9178 or visit the company's website at kingarthurfLOUR.com/voluntaryrecall/
