### **Scenic Fruit Company Recalls Woodstock Frozen Organic Pomegranate Kernels Recalled Due To Possible Health Risk**

The Kane County Health Department is advising that Scenic Fruit Company of Gresham, Oregon today announced it is voluntarily recalling 5,091 cases (61,092 eight ounce bags) of Woodstock Frozen Organic Pomegranate Kernels. Based on an ongoing epidemiological and traceback investigation by the Food and Drug Administration (FDA) and the Centers for Disease Control (CDC) of an illness outbreak, the kernels have the potential to be contaminated with Hepatitis A virus.

No illnesses are currently associated with Woodstock Frozen Organic Pomegranate Kernels and product testing to date shows no presence of Hepatitis A virus in Woodstock Frozen Organic Pomegranate Kernels. The company's decision to voluntarily recall products is made from an abundance of caution in response to an ongoing outbreak investigation by the FDA and CDC. The organic pomegranates are imported from Turkey.

Woodstock Organic Pomegranate Kernels are sold in eight-ounce (227 gram) resealable plastic pouches ([click here to see image](#)) with UPC Code 0 42563 01628 9. Specific coding information to identify the product can be found on the back portion of these pouches below the zip-lock seal. The following lots are subject to this recall:

- C 0129 (A,B, or C) 035 with a best by date of 02/04/2015
- C 0388 (A,B, or C) 087 with a best by date of 03/28/2015
- C 0490 (A,B, or C) 109 with a best by date of 04/19/2015

Hepatitis A is a contagious liver disease that results from exposure to the hepatitis A virus, including from food. It can range from a mild illness lasting a few weeks to a serious illness lasting several months. Illness generally occurs within 15 to 50 days of exposure and includes fatigue, abdominal pain, jaundice, abnormal liver tests, dark urine and pale stool.

Hepatitis A vaccination can prevent illness if given within two weeks of exposure to a contaminated food. In rare cases, particularly consumers who have a pre-existing severe illness or are immune compromised, Hepatitis A infection can progress to liver failure.

Persons who may have consumed affected product should consult with their health care professional or local health department to determine if a vaccination is appropriate, and

consumers with symptoms of Hepatitis A should contact their health care professionals or the local health department immediately.

For more information about the outbreak, please visit the Centers for Disease Control and Prevention's Web site at <http://www.cdc.gov/hepatitis/Outbreaks/2013/A1b-03-31/index.html> or call 800-CDC-INFO (800-232-4636), TTY: (888) 232-6348.

Consumers with the product should not consume the product. The product should be disposed of immediately. Please keep proof of product purchase.

For questions or more information, contact the Scenic Fruit Company at 877-927-3434 or email to [info@scenicfruit.com](mailto:info@scenicfruit.com) from Monday through Friday, 8 a.m. to 8 p.m. PDT
