### **Hummus product recall prompts secondary recall to Taylor Farms**

The Kane County Health Department is advising that the Sabra Dipping Co., LLC recall recently announced has prompted a secondary recall to include products from Taylor Farms Tennessee, Inc., Taylor Farms Texas, Inc. and Taylor Farms Pacific, Inc. (all collectively referred to as "Taylor Farms") because they have the potential of being contaminated with *Listeria monocytogenes*.

A limited number of Taylor Farms products contain Sabra's recalled products. Although there have been no reports of illness related to this recall, the products were distributed in Illinois, as well as other states.

The Taylor Farms products subject to the recall are limited to the code and dates provided. No other Taylor Farms products are impacted by this recall:

- Taylor Farms Veggie & Hummus Bistro Box 0 30223 01037 11/11/16 – 12/1/16
- Schnucks Vegetable and Hummus Snack Tray 0 41318 09193 9 11/18/16 & 11/23/16

*Listeria monocytogenes*, is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, *Listeria* infection can cause miscarriages and stillbirths among pregnant women.

The grocers involved have been instructed to remove any remaining product from their shelves and to dispose of any of the remaining product in their inventory.

Customers who have purchased these products are urged not to consume the products and should dispose of the recalled products immediately. Consumers may call for further information at (855) 455-0098 between the hours of 9 am (PST) and 5 pm (PST) Monday through Friday. Consumers with concerns about an illness from consumption of this product should contact a health care provider.
