## **Ready-to-eat meat products recalled due to possible listeria contamination**

The Kane County Health Department is advising that Olli Salumeria Americana, an Oceanside, Calif., establishment, is recalling approximately 3,946 pounds of ready-to-eat meat products that may be adulterated with *Listeria monocytogenes*.

The products subject to recall bear establishment number "M-45334" inside the USDA mark of inspection. These items were shipped to retail locations nationwide and exported to Canada; however, there have been no confirmed reports of illness due to consumption of these products. The not heat treated, shelf stable, ready-to-eat meat items were packaged on January 19, 2018. The following products are subject to recall: [[View Label](#) (PDF only)]:

(MORE)

Listeriosis can cause fever, muscle aches, headache, stiff neck, confusion, loss of balance and convulsions sometimes preceded by diarrhea or other gastrointestinal symptoms. An invasive infection spreads beyond the gastrointestinal tract. In pregnant women, the infection can cause miscarriages, stillbirths, premature delivery or life-threatening infection of the newborn. In addition, serious and sometimes fatal infections in older adults and persons with weakened immune systems. Listeriosis is treated with antibiotics. Persons in the higher-risk categories who experience flu-like symptoms within two months after eating contaminated food should seek medical care and tell the health care provider about eating the contaminated food.

Consumers who have purchased these products are urged not to consume them. These products should be thrown away or returned to the place of purchase.

Media and consumers with questions regarding the recall can contact Oliviero Colmignoli, owner of Olli Salumeria Americana, at [oliviero@olli.com](mailto:oliviero@olli.com).
