

KANE COUNTY IRIS

Integrated Referral and Intake System

JOIN THE IRIS COMMUNITY!

IRIS is a web-based community referral and tracking tool currently being used by over 200 Kane County organizations to connect families to resources.

HOW IRIS WORKS

IRIS helps connect individuals and families to the local resources they need using a bi-directional, closed-loop referral system. Families can be referred to multiple resources, and users have the ability to maintain communication throughout the process.

BENEFITS

1. FREE

There is no cost to join and use IRIS.

2. HIPAA COMPLIANT

Confidential client information remains secure throughout the referral process.

3. USER FRIENDLY

Many users find IRIS easy to learn and use.

4. ACCESS TO DATA

Users can run data reports for evaluation and grant writing purposes, such as the total number and status of incoming and outgoing referrals.

5. SUPPORT AVAILABLE

The Kane County Health Department can provide staff training and ongoing support.
